

Adhesive Mat Frame

Valutek's adhesive mat frame is constructed from clean and durable poly-styrene material, featuring a 1/8" thick poly-vinyl web coating on the under-side to provide traction on the floor without leaving any residue or adhesive behind. The frame allows for a 2" border around the mat and is sized to match available mat sizes.

All Valutek adhesive mat frames undergo testing and are manufactured in ISO-compliant facilities under Valutek's inspection and stringent process control to ensure compliance with Valutek's quality standards and product

Part Number: VTFRM

Features

- Clean and durable polystyrene material with a 1/8" thick poly-vinyl web coating
- Eliminates floor maintenance and damage resulting from mat placement on floor
- Sized accordingly to available Valutek adhesive mat sizes
- Improves floor cleaning protocol

Application

The adhesive mat frame is designed for use with the adhesive mat. The adhesive mats can be removed and re-applied, allowing for the reuse of the frame.
