

MicroTek

ISO 5-6 (Class 100- 1,000)

# Valutek Coated Polypropylene Sleeve

Valutek's disposable sleeves are made from durable polyethylene-coated spunbond polypropylene fabric, featuring non-latex elastic cuffs for added protection.

This polyethylene coating provides excellent liquid resistance.

All Valutek sleeves undergo testing in ISO-compliant facilities, and they are manufactured under strict process control to meet Valutek's quality standards and product specifications.

Part Number: VTSLVC

## Features

- Made from 100% non-linting spunbond polypropylene with a polyethylene coating.
- Lightweight and disposable.
- Features non-latex elastic cuffs at both the wrist and arm.

## Application

As part of part of the **Valutek Microtek product family**, this product is recommended for use in cleanrooms rated **Class 100-1,000 (ISO 5-6)** critical environments.

It's especially suitable for applications where durability, liquid protection, and cleanliness are paramount.

## Color Option

White

## Packaging

- 10 ea/bag, 10 rolls/bag, 2 bags/case, 200 ea/case.
- Folded packed with a carton liner.
- Critical environment compatible.
- Part numbered and lot number traceable.
