

MacroTek
ISO 7 + (Class 10,000 +)

Valutek Twill-Patterned Cotton Wiper

Part Number: VTTPC

Valutek's twill-patterned cotton wiper is made from 100% tightly woven, long-staple cotton. The fabric of this wiper is bias-cut and has a cross-section of 120 x 60 threads per square inch. This wiper is both clean and durable, offering high heat resistance.

All Valutek wipers undergo testing and are manufactured in ISO-compliant facilities under Valutek's inspection and strict process control, ensuring adherence to Valutek quality standards and product specifications.

Features

- 100% cotton
- Cold knife cut edge
- Excellent absorbency
- High heat resistance enables high temperature tolerance
- Compatible with IPA and other common solvents

Application

As part of the Valutek Macrotek product family, this product is recommended for use in cleanroom Class 10,000+ (ISO 7+) critical environments.

The cotton wiper is ideal for high-heat settings, such as high-purity welding.

Additionally, it is commonly employed for tasks like cleaning, polishing, and burnishing magnetic media disk surfaces, as well as for the cleanup of aqueous and organic solvent spills.

Pre-Saturated Option:

This wiper is available with customized saturated chemistries to meet your specific application requirements.

Size and Packaging

Part Number	Size	Packaging
VTTPC-99	9" x 9" 23 cm x 23 cm	150 ea/bag, 10 bags/case, 1500 ea/case
VTTPC-1212	12" x 12" 30 cm x 30 cm	75 ea/bag, 10 bags/case, 750 ea/case

- All wipers are packed in double poly bags, vacuum sealed, flat packed in carton boxes and with a carton liner.
- Critical environment compatible.
- All wipers are lot traceable with retention samples held in Quality Control for 36 months from manufacturing.
